GL-Series

GL-Series

Always get maximum productivity

Process and print more pages in less time with the innovative FS500 software. Featuring a combination of processing power with management and automation tools, it lets you make the most of your printer.

Produce complex personalized products such as direct mailings, newsletters, statements, and more — always at full speed and from all major variable data formats, and easily generate VDP jobs with the free Fiery FreeFrom Create application.

Automate your workflows for the most efficiency

Use server presets to make job submission fast and error free. Or add the optional Fiery Automation Package to reduce touchpoints and make your workflow even more efficient.

Optimize processing time and maintain the highest print quality by analyzing incoming PDF files and dynamically choosing optimal print settings with Fiery JobExpert™.

Make smart decisions with data analytics

Gather, visualize, organize, and compare your performance metrics to find production improvement opportunities with EFI IQ™. This cloud-based set of applications lets you check your printshop status from anywhere at any time, and have control of your business, even if you're not there.

COMPUTER HARDWARE CONFIGURATION

Intel® i3-8100, 4 core processor
8 GB RAM
256GB SATA SSD (for Windows OS and Fieri software)
500GB SATA HDD (for File processing and storage)
USB 3.0 ports: 3 front, 2 rear
USB 2.0 ports: 4 rear

COMPUTER OPERATING SYSTEM

Windows® 10 IoT Enterprise 2019 LTSC

NETWORK CONNECTION

TCP/IP, Bonjour support, SNMP, Port 9100, IPP, FTP, SMB, WSD, point and print, print via email (PS/PDF), IPv6 support

SECURITY FEATURES

Secure erase, Security Profiles, Security Audit Log
FIPS 140-2 compliant user data encryption
Port blocking, IP filtering, 802.1x authentication, IPsec encryption, HTTPs with TLS 1.3 support
Enhanced certificates management.
Fieri self-signed certificates are recreated automatically
Secure printing, PostScript security, USB security
Digitally signed software updates

VARIABLE DATA PRINTING

Fieri FreeForm™ Create
Supported file formats include Fieri FreeForm Plus, PPML v3.0, PDF/VT-1 and 2, Creo VPS compatible
Record and set level finishing support
Optimized PostScript® and PDF
VDP record range printing
Define record length
VDP Raster Preview
VDP Resource Manager

COLOR MANAGEMENT

Fieri ColorWise® color management technology
Fieri Edge™ color profiles
Fieri Calibrator
Fieri Spot-On™
PANTONE® Color Enabled
Fieri Image Enhance Visual Editor
Auto trapping
Image smoothing

INPUT DATA STREAMS

Adobe® PostScript® Levels 1, 2, 3
Adobe PDF, PDF/X-1a, 3, and 4
Encapsulated PostScript (EPS)
Microsoft Office document formats: doc, docx, xls, xlsx, ppt, pptx, pub (via Hot Folders)
JPEG, TIFF

ADOBE INTERPRETER SUPPORT

Adobe PDF Print Engine 5.5
CPSI version 3020

PRODUCTIVITY AND WORKFLOW

Fieri Command WorkStation®
Fieri JobExpert
Fieri printer drivers for Windows and Mac®
Fieri WebTools™
Booklet Maker
Pad printing
Fieri Hot Folders/Virtual Printers
Fieri JobFlow Base
Print Time Estimation
Fieri Preflight

JDF/JMF SUPPORT

JDF v1.8 IDP-ICS certified
EFI MIS and web-to-print integration ready
Prepress workflow integration ready (Agfa® Apogee, Kodak® PRINERGY, Heidelberg® Prinect)

DEVICE MANAGEMENT AND ANALYTICS

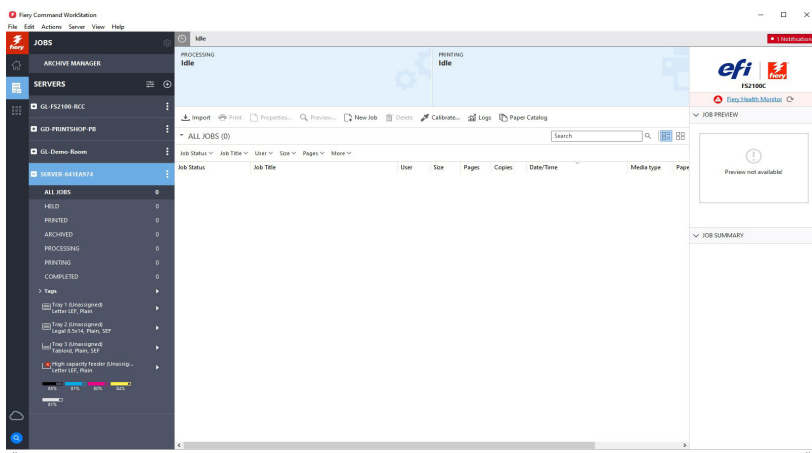

EFI IQ™: Dashboard, Insight, Notify, Go
- EFI ColorGuard (optional)
- EFI Manage (optional)

OPTIONAL FIERY SOFTWARE

Fieri Graphic Arts Pro Package
Fieri Color Profiler Suite2
EFI ES-3000 spectrophotometer
Fieri Impose
Fieri Compose
Fieri JobMaster™
Fieri JobFlow™
Adobe® Acrobat® Pro 2020 Kit

Command Workstation

Command WorkStation is the print job management interface for Fieri servers.

With Command WorkStation, you can connect to multiple Fieri servers and then manage jobs from a single location.

The intuitive interface makes complex tasks simple for Operators and Administrators, regardless of the number or types of jobs you process.
